Pred. No. is the number of results predicted by chance to have a

score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

A method has been developed for the preparation of hydrogenase in which CC a blue-green alga introduced by a recombinant vector containing a CC heterologous hydrogenase gene is cultured in a medium to form and CC heterologous hydrogenase in the microbe body. Also claimed are: (1) a CC blue-green alga introduced by a recombinant vector containing a gene CC having a Shine-Dalgarno sequence consisting of AAGGAA upstream of the hydrogenase structural gene derived from a Clostridium genus microbe; (2) a method for the production of hydrogen by culturing the above CC blue-green alga under light irradiation; (3) a method for the production of hydrogen by culturing the above blue-green alga anaerobically and conflydrogen by culturing the above blue-green alga anaerobically conflored by reacting the above blue-green alga with an electron CC hydrogen by reacting the above blue-green alga with an electron CC then under light irradiation; (4) a method for the production of the production of CC then under light irradiation; (4) a method for the production of the production of CC then under light irradiation; (4) a method for the production of the production of CC then under light irradiation; (5) a method for the production of the production of CC then under light irradiation; (6) a method for the production of hydrogen by culturing the above blue-green alga anaerobically and then reacting it with an CC electron receptor. The method is mild to environment. The present
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             Matches 359;
